

KAUTEX ZERO WASTE VISION

THE 9 R FRAMEWORK

FOUNDATION TO ACHIEVE KAUTEX'S COMMITMENT OF CUTTING SCOPE 3 WASTE EMISSIONS BY 2050. AIMING TO MOVE FROM A LINEAR ECONOMY TO A CIRCULAR ECONOMY.

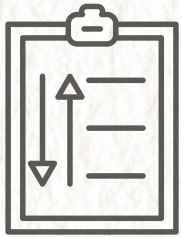

REFUSE

Believing that there is always room for growth while innovatively thinking outside the box.

RETHINK

Prioritizing waste by conducting Kaizens focused on waste.

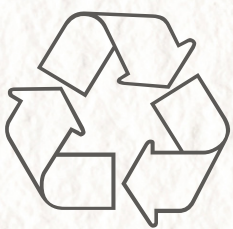

REDUCE

Reduce overall material and components, making our products simple.

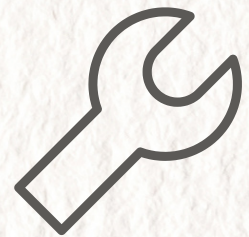

REUSE

Dust produced by the grinder is reused. Reuse returnable containers to eliminate cardboard and increase packaging intensity.

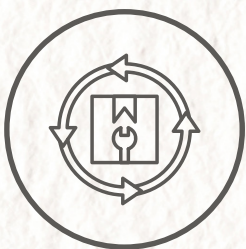

REPAIR

Repair motors instead of purchasing new.

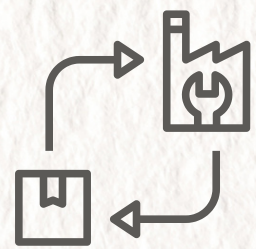

REMANUFACTURE

Components from scrap tanks, remanufactured for use in new tanks.

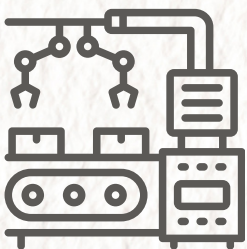

REFURBISH

Refurbish the surface material to prevent plastic waste build up.

REPURPOSE

Repurpose discarded machinery to build machines for new product lines.

RECYCLE

Donating bottle caps for recycling to make into park benches.

RECOVER

Sending residual waste to energy recovery facility.
